42	Who do you need to watch out for?		Map 5: G
43	Who should you listen out for in the woodlands?		Map 5: H
44	What colour is the bike?		Map 5: I

Please note some of the things you are looking for are slightly off the roads or cycle paths. You will need to observe the rules of the road, eg maybe walk small distance on paths to look and get the answer. None of the clues will require you to stop on a road with cars (this will especially apply to question 31 which is visible from the road but the answer can not be got unless you leave the road and use the path. Most clues however are indeed visible from the cycle path route that has been chosen.

*If using google maps the cycle path that is in front of Marriotts was not recognised so it will take you in and out of Marriotts via the main cycle path, you can use the little path if you know where it is.

Please enjoy the ride.

Please upload all answer sheets to stevenagecycling@gmail.com by 30th August Winners will be announced via the facebook event page and via email on request.
