

# SHOP WINDOW

Supply problems may be dragging on like an unwelcome winter but new products are slowly breaking through the hard ground. **Dan Joyce** picks a selection

## The National Cycling Show

See new products in person at Birmingham's NEC from 18-19 June. [nationalcyclingshow.com](http://nationalcyclingshow.com)

### 1 Brompton P Line £2,244+

There's long been a part-titanium Brompton that's 700g lighter. The new P Line shaves another 850g over a steel 3-speed by using a 4-speed derailleur (similar range).

### 2 76 Projects Hi Flow 'No Clog' Tubeless Valves £24.50/pair

Valve cores eventually gum up with tubeless sealant. These Presta-compatible valves have a wider core enabling faster inflation and, they say, no clogging.

### 3 Effetto Mariposa Alpine Light £14

Effetto Mariposa already had a plant-based tyre sealant. Their biodegradable range now includes this bike cleaner, a degreaser (Alpine Extra) and chain lubricant, Flowerpower Wax.

### 4 Shimano Dura-Ace R9200 ~£3,600

Shimano's top-end road groupset has predictably switched to 12-speed. Other features are surprising: it's Di2 only but now with *wireless* shifting; and rim brakes are still an option. [shimano.com](http://shimano.com)

### 5 Pendle ErgoRack £199.99

This roof-mounted bike carrier is different from other fork-support racks: bike and rack detach from the roof bars as one unit and can be hung on a wall with the optional Storage Mount. [pbr.co.uk](http://pbr.co.uk)

### 6 Sealskinz Waterproof Heated Cycle Glove £150

The steep price is per pair, thankfully. As well as being waterproof and well insulated, these winter gloves have a rechargeable battery-powered heating element to keep your hands toasty.

[sealskinz.com](http://sealskinz.com)

### 7 Restrap City Loader £149.99

More Brompton news: a 20-litre, waterproof front bag from Restrap. It has a roll-top closure, two side pockets big enough for a water bottle, and a removable shoulder strap. [restrap.com](http://restrap.com)
