Groups

Easy Pace & Newcomers

Newcomers and Easy Pace rides have been rolled up together as far as data collection is concerned . Thanks to Jeremy both have been well attended with a good balance between male and female riders. It has been difficult to manage this in the past due to the wide range of abilities. It would help me though if ride leaders would fill in the post ride leaders form so I can collect the statistics for Cycling UK.

StepUp Pace

This group is struggling a bit for attendees of late. There are a few members that frequently swap between Moderate and Step Up. This apparently is mainly due to starting points being difficult to access because of HS2 road closures. A ride coordinator would help the situation a volunteer is required.

Moderate Pace

This has a hardcore of regular riders but has struggled a bit over the last 12 months since several of the regular riders appear to have jumped ship for some reason over to ACC. Again a ride coordinator would be good.

If anyone has any ideas on how to attract new blood into the SU & M Pace rides please let the committee know.
